Iyanuoluwa Adebiyi

Administrative Assistant

adebiyicaleb222@gmail.com | +2347050301256 | https://github.com/adebiyicaleb23 | https://www.linkedin.com/in/iyanuoluwa-adebiyi-5a3a78431

SUMMARY

Administrative professional with extensive experience managing complex schedules, high-volume data entry, and executive-level communication. Expert in optimizing organizational workflows and maintaining strict confidentiality across global project environments.

TECHNICAL SKILLS

Administrative & Operations: Administrative Support, Calendar Management, Client Communication & CRM, Email Management, Workflow Organization, Data Entry & Documentation, Confidential Information Handling, Corporate Records Management
Technical Proficiency: Google Workspace, Microsoft Office 365, Python, Pandas, NumPy, AWS, Microsoft Azure, Google Cloud
AI & Data: Data Annotation, Model Evaluation, RLHF Alignment, Prompt Engineering, LLM Benchmarking, Semantic Labeling, Multimodal QA
Design & Media: Figma, Adobe Creative Cloud, Graphic Design, Video Editing, Motion Design

EXPERIENCE

Freelance Virtual Assistant, Graphic Designer & Video Editor at Fiverr & Upwork

Operations | Jan 2022 - Present

- Managed complex calendar scheduling, email correspondence, and CRM updates for international clients while maintaining 5-star rating standards.
- Automated repetitive administrative tasks and data entry workflows to increase operational efficiency for digital agencies.
- Produced professional visual assets, promotional videos, and UI graphics using Adobe Creative Cloud and Figma.
- Coordinated multi-timezone project timelines and maintained organized digital asset repositories for diverse business stakeholders.

AI Data Evaluator & Domain Specialist at Mercor

Tech | Feb 2024 - Present

- Evaluated multi-turn dialogues and performed hallucination detection to ensure high-quality model outputs.
- Authored gold-standard reference responses and technical prompt expansions to improve model reasoning accuracy.
- Executed adversarial red-teaming protocols to identify policy violations and safety risks in model behavior.
- Verified logic and adherence to complex guidelines to optimize reward model scoring.

AI Systems & Automation Specialist at Miva Open University

Tech | Jan 2024 - 2026

- Audited educational platform data structures and automated grading assistant outputs for consistency.
- Engineered Python data parsing scripts to validate data pipeline integrity and cross-verify evaluation results.
- Standardized multi-modal layout consistency across internal digital platforms.
- Analyzed system outputs to identify and resolve discrepancies in automated grading workflows.

AI Data Annotator & Evaluator at OneForma

Tech | June 2023 - Jan 2025

- Executed large-scale natural language annotation and intent classification across multi-domain datasets.
- Evaluated generative model outputs for truthfulness, bias, and adherence to Constitutional AI guidelines.
- Performed semantic segmentation to improve model training accuracy.
- Documented edge-case resolutions to refine model performance standards.

LLM Data Annotation Specialist at Turing

Tech | Mar 2022 - May 2023

- Crafted technical prompts and verified code generations to enhance Supervised Fine-Tuning dataset quality.
- Annotated multi-modal datasets by tagging bounding boxes and evaluating text-to-image semantic alignment.
- Maintained rigorous documentation standards for complex model training tasks.
- Provided detailed feedback on model outputs to improve instruction-following capabilities.

PROJECTS

Virtual Assistance & Remote Operations Management - Administrative Workflow Optimization

Operations | Jan 2022 - Present

- Managed asynchronous communication and task tracking for digital agencies, reducing response latency.
- Automated administrative workflows and maintained organized spreadsheets to ensure data accuracy across projects.

Supervised Fine-Tuning (SFT) & Gold Standard Data Generation - Dataset Development

Tech | Jan 2023 - Present

- Authored thousands of high-quality gold standard prompt-response datasets for model initialization.
- Focused on complex logical reasoning and strict formatting constraints to ensure domain-specific precision.

EDUCATION

University of Suffolk, United Kingdom | University of Abuja, Nigeria | Master's
