Iyanuoluwa Adebiyi

AI Trainer Lead

adebiyicaleb222@gmail.com | +2347050301256 | https://github.com/adebiyicaleb23 | https://www.linkedin.com/in/iyanuoluwa-adebiyi-5a3a78431

SUMMARY

AI Trainer Lead with extensive experience in RLHF, SFT, and gold-standard dataset generation for foundation models. Expert in applying complex rubrics to evaluate model reasoning, factual accuracy, and safety across multi-modal and text-based domains.

TECHNICAL SKILLS

Languages: Python
Frameworks: PyTorch, Hugging Face Transformers, Pandas, NumPy
DevOps & Infra: AWS, Microsoft Azure, Google Cloud
Databases: Data Annotation, Semantic Labeling
Tools: RLHF Alignment, Supervised Fine-Tuning (SFT), Prompt Engineering, Preference Ranking, Hallucination Detection, Red-Teaming, LLM Benchmarking, Multimodal QA, Virtual Assistance, Google Workspace, Microsoft Office 365, Figma, Adobe Creative Cloud

EXPERIENCE

AI Data Evaluator & Domain Specialist at Mercor

Tech | Feb 2024 - Present

- Evaluated multi-turn dialogue and ranked model outputs based on truthfulness and helpfulness to refine RLHF alignment.
- Authored gold-standard reference responses and logic verifications to improve reward model scoring accuracy.
- Executed adversarial red-teaming protocols to identify jailbreaks, toxic outputs, and policy violations.
- Documented findings from complex reasoning tasks to inform ongoing model performance improvements.

AI Systems & Automation Specialist at Miva Open University

Tech | Jan 2024 - 2026

- Audited educational platform data structures and multi-modal layout consistency for automated grading assistants.
- Engineered Python data parsing scripts to validate pipeline integrity and cross-verify textual evaluation outputs.
- Maintained meticulous records of evaluation metrics to ensure adherence to platform-specific quality standards.

AI Data Annotator & Evaluator at OneForma

Tech | June 2023 - Jan 2025

- Executed large-scale natural language annotation and intent classification across diverse multi-domain datasets.
- Assessed generative model outputs for truthfulness, bias, and adherence to Constitutional AI guidelines.
- Applied detailed rubrics to categorize data sets, improving overall model accuracy and reliability.

LLM Data Annotation Specialist at Turing

Tech | Mar 2022 - May 2023

- Crafted technical prompts and verified code generations to enhance Supervised Fine-Tuning (SFT) dataset quality.
- Annotated multi-modal datasets by tagging bounding boxes and evaluating text-to-image semantic alignment.
- Performed critical analysis of model outputs to ensure strict adherence to formatting constraints.

Virtual Assistant & Operations Specialist at Fiverr & Upwork

Tech | Jan 2022 - Present

- Managed administrative workflows, client communication, and scheduling for global businesses while maintaining 5-star ratings.
- Evaluated image-to-video and text-to-image generative AI tools for layout integrity and visual accuracy.
- Produced digital assets and UI graphics using Adobe Creative Cloud and Figma to support project documentation.

PROJECTS

Supervised Fine-Tuning (SFT) & Gold Standard Data Generation

Python | Jan 2023 - Present

- Authored thousands of high-quality gold standard prompt-response datasets for instruction-following enhancement.
- Focused on complex logical reasoning and domain-specific precision to improve model performance.

LLM Safety, Alignment & Red-Teaming

Python | Jan 2024 - Present

- Evaluated multi-turn conversations against safety and ethical frameworks to mitigate harmful outputs.
- Identified adversarial prompt injections and edge-case vulnerabilities using rigorous testing rubrics.

EDUCATION

University of Suffolk, United Kingdom | University of Abuja, Nigeria | Master's
