SUMMARY

Technical content specialist with expertise in transforming complex, multi-source data into clear, accurate, and structured documentation. Proven ability to manage end-to-end content production workflows while maintaining high standards for accuracy and stylistic consistency.

TECHNICAL SKILLS

Languages: Python
Frameworks: Pandas, NumPy, Hugging Face Transformers, PyTorch
DevOps & Infra: AWS, Microsoft Azure, Google Cloud, Vercel
Databases: Data Annotation, Semantic Labeling
Tools: Adobe Creative Cloud, Figma, Google Workspace, Microsoft Office 365, CRM, Virtual Assistance, Workflow Organization, Prompt Engineering, LLM Benchmarking, Red-Teaming, Data Entry

EXPERIENCE

AI Data Evaluator & Domain Specialist at Mercor

Tech | Feb 2024 - Present

- Authored gold-standard reference responses and technical prompt expansions to improve model instruction-following accuracy.
- Executed adversarial red-teaming protocols to identify and mitigate policy violations and toxic outputs.
- Performed multi-turn dialogue evaluations and hallucination detection to ensure high-fidelity content generation.
- Verified logic and reasoning chains within complex datasets to optimize reward model scoring.

AI Systems & Automation Specialist at Miva Open University

Tech | Jan 2024 - 2026

- Engineered Python data parsing scripts to validate data pipeline integrity and cross-verify automated outputs.
- Audited educational platform data structures and multi-modal layout consistency for production readiness.
- Refined automated grading assistant outputs to ensure alignment with institutional quality standards.

AI Data Annotator & Evaluator at OneForma

Tech | June 2023 - Jan 2025

- Executed large-scale natural language annotation and intent classification across multi-domain datasets.
- Evaluated model outputs for truthfulness and adherence to complex Constitutional AI guidelines.
- Resolved edge-case ambiguities in multi-modal datasets to maintain high-quality training inputs.

LLM Data Annotation Specialist at Turing

Tech | Mar 2022 - May 2023

- Crafted complex technical prompts to improve Supervised Fine-Tuning dataset quality.
- Annotated multi-modal datasets by tagging bounding boxes and evaluating text-to-image semantic alignment.
- Verified code and text generations for technical accuracy and formatting compliance.

Freelance Virtual Assistant & Content Creator at Fiverr & Upwork

Tech | Jan 2022 - Present

- Managed administrative coordination and client communication for international businesses while maintaining 5-star rating standards.
- Produced visual assets and UI graphics using Adobe Creative Cloud and Figma for digital projects.
- Automated repetitive administrative workflows and CRM updates to increase operational efficiency.
- Evaluated generative AI tools for layout integrity and accuracy in image-to-video workflows.

PROJECTS

Supervised Fine-Tuning & Gold Standard Data Generation

Python | Jan 2023 - Present

- Authored thousands of high-quality gold standard prompt-response datasets for instruction-following enhancement.
- Ensured strict logical reasoning and formatting constraints across domain-specific content.

LLM Safety, Alignment & Red-Teaming

Python | Jan 2024 - Present

- Evaluated multi-turn conversations for adherence to safety, ethical, and legal frameworks.
- Mitigated adversarial prompt injections and edge-case vulnerabilities through comprehensive rubric application.

EDUCATION

University of Suffolk, United Kingdom | University of Abuja, Nigeria | Master's
