SUMMARY

Administrative professional with over 3 years of experience managing complex calendars, CRM workflows, and digital operations for global clients. Skilled in optimizing business processes, maintaining financial documentation, and supporting executive leadership through proactive communication and task management.

TECHNICAL SKILLS

Tools: Google Workspace, Microsoft Office 365, CRM, QuickBooks, Adobe Creative Cloud, Figma, Video Editing, Graphic Design
Operations: Administrative Support, Email & Calendar Management, Workflow Organization, Client Communication, Data Entry & Documentation, Invoice Processing
Programming Languages: Python
Frameworks: Pandas, NumPy, PyTorch, Hugging Face Transformers
AI & Data: Data Annotation, Model Evaluation, RLHF Alignment, Prompt Engineering, Hallucination Detection

EXPERIENCE

Freelance Virtual Assistant, Graphic Designer & Video Editor at Fiverr & Upwork

Operations | Jan 2022 - Present

- Managed end-to-end administrative workflows including email correspondence, calendar scheduling, and CRM updates for international clients.
- Produced professional visual assets, promotional videos, and UI graphics using Adobe Creative Cloud and Figma to support client marketing initiatives.
- Maintained 5-star rating standards by providing consistent, high-quality virtual assistance and timely project delivery.
- Automated repetitive administrative tasks using Python scripts to increase operational efficiency and data accuracy.

AI Data Evaluator & Domain Specialist at Mercor

Tech | Feb 2024 - Present

- Authored gold-standard reference responses and technical prompt expansions to refine model performance and reward scoring.
- Executed adversarial red-teaming protocols to identify and mitigate policy violations and safety vulnerabilities.
- Performed multi-turn dialogue evaluations and hallucination detection to ensure high-fidelity output alignment.

AI Systems & Automation Specialist at Miva Open University

Tech | Jan 2024 - 2026

- Engineered Python data parsing scripts to validate pipeline integrity and cross-verify automated evaluation outputs.
- Audited educational platform data structures and multi-modal layout consistency to ensure user-facing quality.
- Optimized automated grading assistant workflows to improve response accuracy for student-facing systems.

AI Data Annotator & Evaluator at OneForma

Tech | June 2023 - Jan 2025

- Executed large-scale natural language annotation and intent classification across complex multi-domain datasets.
- Evaluated generative model outputs for truthfulness, bias, and adherence to strict Constitutional AI guidelines.
- Resolved edge-case data labeling issues to improve model training set quality.

LLM Data Annotation Specialist at Turing

Tech | Mar 2022 - May 2023

- Crafted complex technical prompts to improve Supervised Fine-Tuning (SFT) dataset quality and instruction-following capabilities.
- Verified code and text generations to ensure alignment with project-specific requirements.
- Annotated multi-modal datasets by evaluating text-to-image semantic alignment for visual models.

PROJECTS

Virtual Assistance & Remote Operations Management - Administrative Workflow Optimization

Operations | Jan 2022 - Present

- Managed asynchronous communication, task tracking, and document formatting for digital agencies to ensure project timelines were met.
- Automated repetitive administrative workflows and maintained organized spreadsheets to support business scaling.

Multi-Modal AI Training & Multimedia Quality Assurance - Content Creation & Evaluation

Design & AI | Jun 2023 - Present

- Evaluated model behavior across text-to-image and video generation workflows to verify spatial layout adherence and visual fidelity.
- Flagged rendering inconsistencies and annotated multi-modal context datasets to improve generative output quality.
