SUMMARY

Creative professional with a background in high-end digital content production and client relationship management. Expert at maintaining authentic, human-centric brand communication and managing complex administrative workflows for global clients.

TECHNICAL SKILLS

Languages: Python
Frameworks: Pandas, NumPy
DevOps & Infra: AWS, Microsoft Azure, Google Cloud
Databases: Data Entry & Documentation
Tools: Client Communication & CRM, Email & Calendar Management, Workflow Organization, Graphic Design, Video Editing & Motion Design, Figma, Adobe Creative Cloud, Google Workspace, Microsoft Office 365, Virtual Assistance

EXPERIENCE

Freelance Virtual Assistant, Graphic Designer & Video Editor at Fiverr & Upwork

Tech | Jan 2022 - Present

- Managed end-to-end client communications and CRM operations for international brands, maintaining 5-star rating standards through personalized, human-written engagement.
- Produced high-fidelity visual assets, promotional reels, and UI graphics using Adobe Creative Cloud and Figma to elevate brand aesthetics.
- Automated administrative workflows and scheduling across time zones to ensure consistent availability and responsiveness for high-end clientele.
- Executed multi-channel social media content strategies, including video editing and motion design, to drive brand growth and customer interaction.

AI Systems & Automation Specialist at Miva Open University

Tech | Jan 2024 - 2026

- Audited platform data structures and multi-modal layout consistency to ensure professional brand presentation.
- Engineered Python scripts to validate data pipeline integrity and cross-verify automated outputs against manual quality standards.
- Coordinated cross-functional administrative tasks to maintain operational efficiency across educational delivery platforms.

AI Data Evaluator & Domain Specialist at Mercor

Tech | Feb 2024 - Present

- Authored gold-standard reference responses and technical prompt expansions to refine model reasoning and logic.
- Performed multi-turn dialogue evaluations to ensure output quality met strict human-alignment benchmarks.
- Executed adversarial red-teaming protocols to identify and mitigate policy violations in model-generated content.

AI Data Annotator & Evaluator at OneForma

Tech | June 2023 - Jan 2025

- Executed large-scale natural language annotation and semantic labeling across diverse multi-domain datasets.
- Evaluated generative model outputs for truthfulness, bias, and adherence to complex Constitutional AI guidelines.
- Resolved edge-case inconsistencies to improve the reliability of model-generated text and visual data.

LLM Data Annotation Specialist at Turing

Tech | Mar 2022 - May 2023

- Crafted complex technical prompts to improve Supervised Fine-Tuning (SFT) dataset quality and instruction-following capabilities.
- Annotated multi-modal datasets by evaluating text-to-image semantic alignment for visual models.
- Verified code and text generations to ensure high-quality training data for foundation models.

PROJECTS

Virtual Assistance & Remote Operations Management - Administrative Workflow Optimization

Tools | Jan 2022 - Present

- Maintained organized spreadsheets and handled scheduling across time zones for digital agencies.
- Automated repetitive administrative tasks to allow for increased focus on high-value client communication.

Multi-Modal AI Training & Multimedia Quality Assurance - Visual Content Evaluation

Tools | Jun 2023 - Present

- Evaluated model behavior across text-to-image and video generation workflows to verify spatial layout adherence and visual fidelity.
- Flagged rendering inconsistencies to ensure high-quality output standards.

EDUCATION

University of Suffolk, United Kingdom | University of Abuja, Nigeria | Master's
